Life Path

Ascendant In Virgo

PROFESSIONAL - LIFE-PATH: Efficiency

Your professional life means a lot to you, and you work hard and conscientiously to become well-integrated in your whatever field of interest you choose. You are more concerned with efficiency and service than with getting personal recognition, and this makes you an asset in any working team. You labour industriously behind the scenes to make things function, and still find time to look after the needs of your colleagues. You have special abilities as regards service functions, organisation and analysis, and health matters, and are especially concerned about cleanliness and purity. You do however have a tendency to underestimate yourself, never being quite satisfied with your efforts - or for that matter the efforts of others. As you are strongly motivated to create order, you tend to focus on disorderliness in others. Learning to relax and be content with your efforts takes the pressure off you.

PERSONAL - LIFE-PATH: Efficiency

One of your better qualities is your self-deprecating nature. You are often willing to put others first and are generally quite content to take on a low-profile role, in which you concentrate on getting everyday life to function smoothly for all concerned. You are both critical and self-critical, and may often feel that life is hard work - a never-ending stream of tasks waiting to be done. In contrast your partners seem to let things just flow along in a disorganised, even lazy manner. This is of course a natural consequence of your own over-diligent manner, in which you tend to take on the duties of others. You can learn a lot from partners by being content with, and accepting, things as they are. It can be a great satisfaction for you to develop greater health consciousness during the course of your life, as you have natural abilities as regards nutrition and the influence of thoughts and emotions on physical health.

Ascendant Square Moon

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy.

As there is tension between these two planetary influences in your chart, it will be very difficult for you to achieve the promised beneficial results before the age of 30.

PROFESSIONAL - LIFE PATH: Unconscious attunement

You have an emotionally compelling nature which profoundly affects the feelings of the people you associate with. You are very concerned with the emotional bonds which hold people together, as well as issues of security. You can therefore work for example with the needs of the public in some way especially as related to homes, family or motherhood. You infuse all your work with an emotional investment. A hard professional environment is bad for you.

PERSONAL - LIFE PATH: Unconscious attunement

You are a moody person and will often find yourself affected by fluctuating emotional states - especially through worrying about family matters or security issues. You have a deep appreciation of the power of the unconscious and instinctual behaviour. In your dealings with people unspoken feelings have far greater priority than rational concerns or argument. You are finely tuned to changes in atmosphere, and adjust accordingly.

Ascendant Trine Mercury

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - LIFE PATH: The messenger

You are a person of many talents, chiefly in the field of information and communication. Meeting people and creating contacts are a part of your professional life-style - you have a message to deliver, and you do so in a flurry of activity. Intelligent and informed, you keep yourself up-to-date on all the latest developments.

PERSONAL - LIFE PATH: The messenger

You are easy to make contact with, and always willing to exchange the time of day with anyone you meet. Easily distracted, you can find yourself getting involved in many things at the same time - but then you hate to be bored. You give the impression of being a person on the move. Being gregarious and talkative, you are an excellent catalyst for getting people together. You fascinate people with your ideas.

Mercury In Capricorn

PROFESSIONAL - MENTALITY: Develop organisational talents
Early in your life, you may have felt a lack of confidence mentally. However, you are powerfully motivated to prove your abilities, and as a late starter you slowly but surely rise in the professional hierarchy. Other things being equal, you are person who can be trusted with responsibility. You can handle a heavy work-load, which you conscientiously plough your way through. If you can combine these qualities with an ability to renew your ideas and be open, you will go a long way. You have the ability to think and plan in a strategic manner. This cautious manner means that you are good at avoiding impulsive errors, but on the other hand you can be overly sceptical and miss opportunities. You are a believer in the values of tradition and experience, and you would work well in an administrative position.

PERSONAL - MENTALITY: Develop organisational talents

You are a serious-minded person, careful in self-expression and authoritative in making your opinions known. You have strong views, expressed slowly and thoughtfully. A believer in logic and reason, you like to see proof, before you can accept anything controversial. Other people may feel that you put a damper on their ideas. However, there is more to reality, than meets the eye, and when you do make a discovery you are extremely dedicated in learning more about it. You like to see ideas work in practice, and have little time for dreams which cannot be realised. Other things being equal you are an honest person, who can be relied on.

Mercury In 5th House

PROFESSIONAL - MENTALITY: Mental creativity

You have a creative attitude to your profession and have a quick eye for profit. Generally you are confident enough to want to take a risk to get on in the world. You have a talent for getting your message across with charm and charisma, so you may find yourself involved with teaching or communicating. Certainly you have a way with children and a fine sense of fantasy and adventure. You are sensitive about your intelligence, and it is important for you to be able to impress others with your grasp of detail and general competence.

PERSONAL - MENTALITY: Mental creativity

You have a rather impish nature and good sense of fun and can excel as a storyteller. Humour and wit, and a natural ability to communicate with charm means that you have a tendency to involve yourself in reasonably harmless romantic contacts. You are less motivated by erotic needs in romance than the need to be on the same mental wavelength. Your partner will appreciate your playful nature, and children will feel that you meet them on their own mental level. One weakness is that you tend to be flirtatious. Really your need to have an audience is best satisfied by creative work.

Identity

Sun In Capricorn

PROFESSIONAL - IDENTITY: Define your highest goal
Many challenges during your life help you to develop a great determination and strength of character. By setting long-term goals for yourself you constantly refine your natural sense of self-discipline. Your ultimate goal in working so hard is to build up a solid character based on self-esteem. It is in overcoming obstacles that you truly get to feel personal satisfaction. The greatest challenges of your life come when you feel you have failed at something. Your status and professional life can mean a lot in this respect, and changes in these areas lead to major identity upheavals. However such changes are essential to make you periodically reconsider the direction you life is taking. In your attitude to life you expect things to be difficult, and work hard instead of working smart. By cultivating a positive attitude of mind, the achievement of your goals will be made much easier. Choose to see so-called failures as stepping stones which actually help you find the right direction in life, so that you learn to make a virtue of necessity. You have administrative ability and are endowed with an aura of authority.

PERSONAL - IDENTITY: Define your highest goal
You have rather conventional tastes and quite a strong sense of morality, and you will be looking for qualities you can respect in a partner. You tend to judge weaknesses rather severely and expect a high standard in your relationships. As you are strongly motivated by your ambitions you may have a tendency to neglect your emotional life in favour of your professional interests. It is essential to find a balance between your professional and personal life. Public commitments can often take priority over private, though you will always be conscientious in your duty to the family. Partners can find you rather stiff and unspontaneous, and although this may be the case, you are normally loyal and responsible as regards family life. You are generally a person who can be trusted. When your outer facade melts you can be quite soft and sensual, and very devoted.

Sun In 4th House

PROFESSIONAL - IDENTITY: Pride in the family
Professionally your concerns centre around your immediate environment, land and property. You may identify strongly with your family or your country, and you are motivated to form strong bonds of loyalty - whether it be to the company you work for, or larger national interests. You need to feel needed. You have a talent for creating a homely and secure environment for other people and have strong convictions about family values. For you to function well in a career it is important for you to have a secure home base. You are attracted to an expensive home, because living well is a matter of prestige for you.

PERSONAL - IDENTITY: Pride in the family
Your upbringing has had an especially profound effect on your

identity, and your father's influence will have been particularly strong in this respect. You have had a compelling need to look up to him and use him as a role model - for good or ill. Later in life you will draw great strength from the family you build up yourself, and your children will probably take a central role in your life. Your home and family will be the most important motivating influence for you, and you will be aggressively protective of them. You identify strongly with your home and may also take a special interest in your family history. You will not mind spending a lot of your time at home - this where you can really be yourself.

Sun Sextile Uranus

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.
When reading the following text, please bear in mind that you will for the most part experience only the positive effects of this aspect. You are particularly stimulated to learn and communicate, as regards the matters concerned.

PROFESSIONAL - IDENTITY: Consciousness change
Your chief contribution to society is your ability to entertain original ideas and experiment with new ways of doing things. You need to work in an independent position or with a company which respects and encourages your originality. You quickly become bored if you have to perform the same functions day in day out. You need to meet people - and you thrive on unusual challenges, especially if they involve travel and dealing with radically different cultures. You may travel long distances to exotic countries, or work with advanced technology. Alternatively you will go your own unique direction in your professional life, developing unconventional talents - perhaps connected with consciousness development in one form or another. You are not one to stand on ceremony either - you hate stuffy protocol and thrive on contacts with young and old, rich and poor. It is your job to pave the way to the future with new ideas and an original life-style.

PERSONAL - IDENTITY: Consciousness change
You are a true individual and other people may regard you as rather eccentric. You like to express yourself through actions which surprise others in some way, and you enjoy embracing ideas which are provocative. You do not like to feel tied down, and function best in a relationship which gives you a lot of personal freedom. Often your friends will seem more important than your family, and as a result partners can feel that they are unable to establish an intimate contact with you, though you are usually quite open and fair-minded. During certain periods of your life you will choose to change your direction radically. These personal revolutions are often accompanied by new interests of an untraditional nature - for example astrology, electronics and technical matters, or mental powers. You have an electric and rather unstable aura around you, and often your nerves are on edge. People feel uncertain around you as they feel that anything can happen, so you would be wise to put them at ease about your intentions.

IDENTITY - IDENTITY: Consciousness change
Your father was probably unusual in some way, and he will have brought a sense of unpredictability into your life - perhaps because he travelled a lot, perhaps because he was an outsider in some way, or simply because he acted irrationally so that you never quite knew what he would do next. You may have had a friendly - not fatherly - relationship to him, or you may have felt totally alienated. Whatever, there was an aura of tension or excitement in your relationship.
Later in life this evokes a need for you to develop unconventional habits and be different in some way. Moreover, you can adopt a

rather distant attitude to your feelings. At its most extreme, there can be a lack of grounding with very little sense of contact with the physical body, and far too much mental activity. Success in your life depends on you coming down to earth with your visions. Factors in your upbringing can lead you to feel that you are an outsider. Actually you would prefer not to run with the crowd, so why worry about being different? This feeling can be utilised positively by helping people who feel they are outsiders.

Sun Square Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

There will be great difficulty in integrating these two planetary influences, and the promised harmonious results will only arise after you have expended time and effort.

PROFESSIONAL - IDENTITY: Transformation of identity

It is important for you to make a strong impression on people, and you invest a lot of energy in this - more than you are aware of. Much can be gained by toning down your personal energy. You are suited to positions requiring the use of power and psychological insight. Whatever you do, you like to be deeply - sometimes fanatically - involved. This may often lead to battles of will, and you tend to win, basically because you cannot contemplate personal defeat. More flexibility would actually benefit you and help you avoid tiring power games.

Personal power is a natural asset - as you will discover after a number of significant personal crises which lead to a reevaluation of your role. These crises are centred around achievement at all costs, or fanatical attachment to a particular role which outlives its meaning for you. When you learn to tone down your sensitivity about self-esteem, and invest your considerable willpower into projects which really mean something to you, and to others, you can achieve success. You may have a talent for psychology or dealing with the powers of the unconscious.

PERSONAL - IDENTITY: Transformation of identity

Early personal experiences have made you sensitive about your identity, and anxious about self-esteem. However this means, paradoxically, that you often overwhelm others with your presence. Thus you tend to be a dominating figure in intimate relationships. You need a partner who is not superficial and who shares your intense approach to life. To achieve harmony here you should relax instead of asserting yourself, otherwise relationships will become very exhausting. It is important to realise that power battles are related to inner fears about your identity. Women with this influence will often be attracted to a dominating man, only to find that he does not match her own strength which was acquiring through trying times in childhood. More intimacy can be achieved by daring to show vulnerability.

IDENTITY - IDENTITY: Transformation of identity

It has not been possible for you to cement any truly deep bond to your father. Perhaps he disappeared when you were young, and a stepfather took his place, perhaps he was at home but unreachable or distant in some way. Because intimacy was impossible to attain, you feel a inner chasm of emptiness connected with your identity.

You have felt that you were not recognised as an individual - hence your deep need to manifest yourself strongly later in life. Although some of the fault almost certainly lies with your father, you have a tendency to compound the problem by withdrawing yourself totally when you feel ignored or unappreciated. This was your way of protecting yourself psychologically as a child, but in the long run these tactics lead to a profound alienation.

The enormous efforts you make to gain self-acceptance

ultimately lead to great personal power and psychological insight. Psychic or intuitive powers can enrich your life and give strength to others.

Emotions

Moon In Sagittarius

PROFESSIONAL - EMOTIONS: Expand emotional horizons
Professionally you need a working life which offers plenty of freedom and the opportunity to expand your horizons, especially if this gives you the opportunity to travel internationally. You also have strong cultural interests. Repetitive work bores you. You are an exciting person to be together with, and you create a stimulating mental atmosphere with your outspokenness and direct way of saying things. It is important to realise however, that you are rather oblivious to the sensitivities of other people. A little tact would go a long way. You thirst for knowledge and understanding, and thrive in an intellectually nourishing environment. At the same time you can be rather vociferous; you are passionately moved by injustice and quick to defend those who have been wronged.

PERSONAL - EMOTIONS: Expand emotional horizons

You are a freedom-loving person, who does not take kindly to any form of emotional limitation in your personal relationships. You are inspired by wide horizons, and this will lead to a good deal of travel in your life, or a drive to absorb the culture of the world through the media. This may result in a period of time spent travelling or living abroad. Some of the great difficulties in your life arise when circumstances force you to accept limitations on your freedom and the need to form stable emotional bonds. Major transformations also happen in connection with disillusion when you outgrow old beliefs and convictions, as you most surely will. You need intellectually challenging partnerships, but things would function better if you avoided strident discussions.

Moon In 3rd House

PROFESSIONAL - EMOTIONS: Caring communication

Family upbringing will have stimulated considerable interest in the outside world, and this probably means you have travelled a lot and perhaps lived in several different locations. Professionally you can succeed in a job where close professional contacts need to be nurtured. You have a compelling persuasive talent and you would be suited to a profession, where communication was essential. When you communicate, you do so with feeling and conviction. There is also a talent for teaching - especially children so you may wish to work in the field of education. Travel and new environments would be stimulating job-factors. There may be an interest in, or talent for writing, art, or music.

PERSONAL - EMOTIONS: Caring communication

You have a tendency to cement very powerful emotional bonds to a sibling or sister-figure in your life, or perhaps to a schoolmistress. Your mother, too, will have had a powerful effect on your mental development, and she may well have been strongly involved in your education. Trying emotional experiences in your life result from strong differences of opinion, perhaps in sibling relationships. You have a tendency to attach yourself uncritically to a set of ideas more through loyalty than conviction, and when you argue your case you are easily swayed by irrational arguments and emotions. You are however an extremely communicative person, and enjoy building up a warm network of contacts in your local environment.

Moon Opposition Mars

This aspect is of medium strength and its influence will often be felt, though not acutely.

This aspect shows a strong polarisation in your chart, and difficulty in integrating the principles described. There may be travel and separation in connection with the principles described below.

PROFESSIONAL - EMOTIONS: Temperament

You have a dynamic and forceful personality, and generally get your way in your professional dealings. Your greatest enemy is your temperament - you get angry easily, and when you get angry, you take ill-considered actions. So if your job involves dealing with the public, there will tend to be a lot of conflict. You may however function well if your job entails the need to confront people and get things done, but not if it involves diplomacy or sympathy. You are impatient, but on the other hand you tend to invest your heart and soul into your work and get things done quickly and efficiently. However, you create an atmosphere of tension around you, and are extremely sensitive to criticism. You often imagine attacks which do not actually take place, instinctively going on the offensive, or defensive, to deal with supposed threats. Obviously this kind of reaction evokes the very kind of attack you are seeking to avoid. Only by taking a long, cool look at your assertive nature and by developing greater sensitivity and calm as regards others, can you hope to win goodwill in your professional life.

PERSONAL - EMOTIONS: Temperament

You were brought up in an atmosphere of tension which has made you constantly on guard. Perhaps your mother was an unusually aggressive woman, or perhaps there were many struggles in your family life. Whatever the reason you tend to get easily upset now - especially in your domestic life. Women with this aspect are often attracted to emotional men who express their feelings passionately and intensely. However this may be because of unconscious provocation from the woman, who - never having experienced peace and calm in her early life - recreates the atmosphere of tension through criticism or angry moods.

Men with this aspect tend to have a short fuse, and often go about in an irritated state of mind. By identifying early childhood patterns of tension it may be possible to combat these negative emotional anger-states, which can be the source of a great deal of internal pain. Expression of anger rarely solves anything. It does not pay to let anger out, as you may fondly imagine. It pays to be conscious of the reasons for anger, before it arises. As you mature and you gain insight into your emotional nature, you can learn to create an atmosphere of excitement around you. You will be inspiring to be with, and moreover, you learn to combat insecurity by giving freedom of movement and encouraging independence in those you are attached to.

Moon Opposition MC

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

You will have to work hard to attain the beneficial results of this aspect. Partnership matters are central for your gaining an understanding of the principles involved and integrating them in your nature.

PROFESSIONAL - GOALS: Soul life

Your career can be profoundly influenced by the world of feeling, by public mood, by the sea, the food industry, property or other issues which absorb public interest. Your family may play a role in your success - particularly your mother. As you are acutely aware

of matters of public interest, you may choose to involve yourself in a caring profession. In the choice between career and family, emotional considerations win out.

PERSONAL - GOALS: Soul life

Your emotional life and your family bonds have high priority in your life. You manifest inconstancy as far as your goals are concerned, because you tend to turn to the past for security, and often allow your feelings to play a decisive role as far as your life-direction is concerned. On a positive level it could be said that you are guided by the forces of the soul. You have an intuitive contact with the unconscious mind.

Mentality

Mercury In Capricorn

Please read page 2: "Mercury In Capricorn"

Mercury In 5th House

Please read page 2: "Mercury In 5th House"

Mercury Sextile Venus

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - MENTALITY: Affability

You are a very versatile person, combining good judgement with taste and the ability to convey information in a pleasant manner. Success comes when you work with communication in one form or another. You may excel in the arts or in public speaking. You bring a human element into your professional dealings, and advancement will often come through the goodwill of others. Your mild manner and diplomatic nature leaves a good impression on others. You would function well in a position with lots of contact with people, for example dealing with personnel. You are very concerned about justice and make a strong effort to see both sides of any issues. You can secure agreement because you are willing to listen to others, and you are careful not to alienate people with impulsive remarks. Obviously with these talents you will prefer a harmonious professional environment to one in which there was too much trouble or competition.

PERSONAL - MENTALITY: Affability

You have a gentle and sensitive nature, and strive to maintain harmony in your personal relationships, going a long way to meet the needs or demands of another, before you allow yourself to feel provoked. In love relationships communication is the single most important factor. This may stem from a very close relationship to a brother or sister when you were a child. Even now, you probably cultivate a brotherly or sisterly manner in your relationships, where games and the element of play have an important role. As mental stimulation is so important for you, you can get bored with your partner, and for some people this may mean a tendency to become romantically involved on the side, though there is rarely any malice involved, should this be the case. Erotic desire is hardly a motivating factor for you, but you do have a tendency to flirt, and this can make your life more complicated than you would wish.

Mercury Opposition Saturn

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - MENTALITY: Mental discipline

You have a logical and disciplined mind, and special skills as regards working out systems and performing tasks which require patience for long periods of time. You prefer to stick to rules and established methods, but you can apply your mind to any task in a very conscientious way, if required. You may be rather suspicious in allowing the imagination to have too much influence you are the kind of person who reads instructions carefully and follows them. This can make you a little inflexible as regards integrating new methods. Furthermore your admirable attention to detail can hinder you in getting an overall perspective on things. In the first phase of your professional life you can be afflicted by a sense of mental inferiority, so it is important for you to spend time on further education in a constant process of acquiring new skills.

PERSONAL - MENTALITY: Mental discipline

You are oversensitive about your intelligence and have a tendency to work twice as hard to prove to yourself and to others that you can meet intellectual demands. As you put so much effort into improving your mind, you can become quite an expert in your chosen field. However in personal relationships you can become very defensive when you are misunderstood, and in situations when you try to understand another person, a mental block can descend because you invest too much self-conscious effort in the process. Relationships would benefit dramatically if you were more relaxed in this respect. You are reluctant to admit it when you do not understand, and this can lead to an escalating situation of misunderstandings. You are also rather a stickler for detail and can be frustratingly pedantic, and your formal style tends to stand in the way of mental spontaneity. Many of the problems around communication improve after the age of 30, as you learn that communication is not a competition but rather a two-way process in which understanding brings mutual benefit.

THE MIND - MENTALITY: Mental discipline

You have probably experienced a number of episodes which undermined your mental confidence as a child. This can be connected with siblings who you felt performed better at school than you did, or experiences at school connected with teachers or pupils in which you felt mentally exposed or ridiculed in some way. Whatever the cause the fear of not being able to grasp facts can be a mental block which acts as a barrier in communication. Trying too hard to understand can prevent you from learning. Some people with this aspect panic when mental demands are made on them, others develop amazing mental self-discipline and determination to make progress with their education. Sometimes further education is interrupted because of a lack of faith in the outcome, and if this is the case, you may find yourself taking up education again well into your thirties. There is however a danger of gathering information and learning facts and figures for their own sake. Too much concentration on details hinders you from seeing the wood for the trees. A point comes when it is important to abandon theory and put learning into practice. When you overcome your lack of mental confidence you can become a model of clarity and mental efficiency.

Values

Venus In Scorpio

PROFESSIONAL - VALUES: Relationship depth

You are a private person, loyal by nature, with considerable perspicacity in personal relations. You are not suited to employment which demands that you relate superficially to other people, although you certainly know how to maintain an aura of privacy around you if you have to. One or two strong professional bonds to which you are very loyal is more your style. You can deal with many issues, but often some secretiveness is required, especially as regards financial matters. You have a talent for administrating finance. In the first part of your life, you may be strongly attracted to material success and personal prestige, as your personal worth is a central issue for you and a good salary does wonders for self-esteem. This may change later because of a financial crisis, which forces you to re-evaluate what is important to you.

PERSONAL - VALUES: Relationship depth

Emotionally you would prefer to mate for life - love is a serious issue for you, and you are inclined to be faithful, though possessive. There is considerable anxiety in relationships, and often a powerful jealousy, which in reality is testimony to the intensity of your love. Women with this position expect 100% emotional involvement from their mate, and the erotic element of the relationship will be a major factor. Indeed sexual satisfaction may serve as a barometer for the relationship. Men are attracted to the silent type of women, the aura of mystery and the sense of fated attraction. There is a tendency to become enslaved by the passions. It is important to avoid economic and emotional co-dependency. It is difficult for a relationship to survive unfaithfulness - love is all or nothing.

Venus In 3rd House

PROFESSIONAL - VALUES: Express your good taste

You have a gentle and diplomatic manner when you express yourself. Polite to a fault you win people over to your point of view through charm and the art of reason. Professionally you would succeed in a job which makes use of your diplomatic talent and refined way of expressing yourself. You have a talent for communicating values, and a genuine appreciation of culture in all its forms. There are secretarial talents, but these are overshadowed by artistic interests and your superior way of dealing with people on a personal level. People enjoy meeting you, and vice-versa. In work you may be efficient, but above all you have style - if a solution is not aesthetically pleasing, it is not appealing to you.

PERSONAL - VALUES: Express your good taste

You may have been profoundly influenced by a close bond to a sister, or perhaps a particular girlfriend or teacher at school. In education matters you are more inclined to the arts than the sciences, and you have a fine aesthetic appreciation. If you have a sister, her fate as regards intimate relationships will have a profound effect on you. In your own intimate relationships you travel to find love, and the relationship itself may involve travel. You may meet your loved one at a place of education. You have a passion for love stories and romantic tales. Mentally you have talents for the fine arts or music, and these interests are probably stimulated by a warm relationship. You may have a remarkably pleasant voice and even singing talent.

Venus Sextile Mercury

Please read page 5: "Mercury Sextile Venus"

Venus Trine Saturn

This aspect is extremely powerful in your horoscope, and will be a major feature of your character.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - VALUES: Formality

You have a strong sense of responsibility regarding your professional relationships, and you value trust and stability most of all. You can therefore function well in long-term business partnerships, and you are especially good at relating to the public in a friendly, though formal manner. You have a pleasing diplomatic nature and a fine sense of protocol. Job security and a strong economy are important to you, and other things being equal you are very careful with money. This may give talents connected with the financial world, banking, investment etc.

Women with this aspect can be especially ambitious and willing to endure considerable hardship to get on in a career. In general there is more emphasis on the professional life than on the personal. As time goes by you grow to learn exactly what you are worth, and expect to get paid for it.

PERSONAL - VALUES: Formality

It is unlikely that you will be completely fulfilled in your love relationships during the first 30 years of your life. You may have a rather low sense of self-worth and a correspondingly low threshold of expectation as far as romance is concerned. You prefer to play it safe, having burned your fingers in your young days. You may be attracted to an older partner, who can provide structure and security in a relationship, although security of this kind can prove restrictive in the long run. Intimacy does not come easily to you because of a strong fear of rejection. You maintain a cool facade as a protective measure, though this only makes your world a little colder. As you get older you learn that it pays to be a little more vulnerable, it pays to take a risk with your emotions. First you need to build up a strong sense of personal self-worth. Then by showing your own feelings without demanding exaggerated demonstrations of love in return, you can create a safe space for the mutual exchange of love.

LOVE - VALUES: Formality

Early in your life you experienced love as conditional on your behaviour. Love was measured out to you on a basis of whether you deserved it or not - thus you now often feel undeserving. Perhaps you felt that there was little love between your parents, perhaps you had an older sister who made life difficult, and very probably around the age of 15 you may have had an unhappy love affair which ended painfully. As a result you became very cautious about expressing your feelings. You may choose a relationship with someone you can be sure of, but do not love, to avoid being hurt again. Or you may miss romantic opportunities because you wait too long not daring to show your feelings. When you do fall in love you become initially very open and vulnerable and extremely hungry for demonstrations of affection. Immature romantic demands can lead to rejection because no individual can satisfy your deep hunger for love. However if you feel rejected you react by becoming cold and remote, thus creating even more distance between you and your loved one. Men with this pattern have difficulty showing their feelings, though they may be quite effective at making formal romantic gestures. This emotional restraint evokes the feeling in the female partner that she is not loved, and as time goes by she will feel

unattractive and wilt like a plant without water. Women with this aspect have difficulty believing that they are attractive, no matter how good-looking they may be. Fear of rejection prevents them from giving a spontaneous display of emotion.

These relationship difficulties can be solved by patient work over a period of time. By lowering expectations, by giving instead of demanding, by resolutely refusing to blame the partner for personal unhappiness, by commitment and loyalty, you can develop a relationship which ultimately becomes warm and fruitful, especially in the latter part of life.

Drives

Mars In Gemini Retrograde

At birth this planet appeared to be moving backwards relative to the Earth. You will learn special lessons in connection with attachments to people and things from the distant past, and a turning point will arise, at some point in your life, in the matters described.

PROFESSIONAL - DRIVES: Develop your mind

You are a person with many mental gifts and a very active mind. Your mind is like a sharp tool which can be used in many different areas, and you thrive when you are given several tasks to do at once. This love of diversity is only a disadvantage if you start too many things, and forget to finish them. Boredom is your greatest enemy in this respect. As long as a project has your interest you will keep at it. You are however not so good at following up on your successes, as you are more interested in ideas than in the results they bring.

You will almost certainly do a lot of travelling in your life - especially locally. Some kind of personal transport is essential for your well-being. Meeting people keeps you stimulated, and you probably have a talent for inspiring and teaching others. You must watch a tendency to be sharp or sarcastic - your intellect is a double-edged sword, and being a fast thinker yourself, you have a tendency to get impatient with the slower pace of others. If you slowed down a little yourself and worked in a steadier fashion, you would make fewer mistakes and be able to consolidate your gains.

PERSONAL - DRIVES: Develop your mind

You are a quick thinking person, rather impulsive in self-expression, even to the point of being rude or cheeky. At the same time you can be humorous and witty and quite a success socially. Men with this position of Mars will be the roving type, always on the move either mentally or physically. In relationships this may also mean a roving eye and the tendency to flirt rather harmlessly. Women with this position will be attracted to the youthful type of man who is full of ideas and bubbling enthusiasm. There is a tendency - which may be more or less pronounced - to get involved in more than one relationship. There is a danger of being far too argumentative in relationships, perhaps because of an innate mental restlessness. Nevertheless relationships will normally embody an element of excitement and travel, which can be very stimulating for both partners.

Mars In 9th House

PROFESSIONAL - DRIVE: Intellectual pioneer

Your opinions and convictions are an important part of your professional life. You have a strong desire to increase your knowledge and understanding, but you function better when you are self-taught. Too many intellectual conflicts arise when other people try to foist their opinions on you. You are extremely powerful - perhaps too dominating - in putting forward your point

of view. Nevertheless you can have success as a teacher or working in some field which necessitates persuasion or the spreading of information and ideas. You are very dynamic in your outreaching to others and may travel a considerable amount in connection with your work.

PERSONAL - DRIVE: Intellectual pioneer

You are a fearless searcher for truth and understanding, and this search may well bring you to foreign lands. You are an explorer type, constantly striving to increase your horizons and develop your interests. Women with this position of Mars are often attracted to men from a different culture or country, men may discover partnership abroad. You have strong opinions and these probably arose because you had to hold your own against an intellectually dominating brother, father or perhaps teacher in your early days. As a result you tend to be too aggressive when defending your own convictions. Your spiritual development may be profoundly affected by a mentor of some kind, though you have little inclination to subjugate yourself to the principles or convictions of anybody else. You may see your God as wrathful or severe, but you are inspired to rise to meet spiritual challenges in your journey to find truth.

Mars Opposition Moon

Mars Sextile Jupiter

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - DRIVES: Ebullience

You are a person with considerable optimism and energy, and your generally dynamic nature and positive attitude to the future will most probably bring expansion and success in your professional life. You are endowed with great courage and enjoy a challenge, so you would thrive in employment which gave you the opportunity to expand your horizons and travel. There is something of the pioneer in you. As intellectual challenges are also important, you need mental stimulation and the opportunity to discuss issues and get important messages across. You can be very persuasive, but perhaps you also have a tendency to browbeat others. You have an almost religious zeal when it comes to convincing others about what is right and what is wrong. You may even see yourself as a fighter for justice, and whereas this ability to fight for a cause can be very useful under some circumstances, it can also lead to tiring conflicts and disagreements with superiors. Obviously, a job which utilises your energy, enthusiasms and deep convictions would be the best channel for your ebullient energy.

PERSONAL - DRIVES: Ebullience

You may well be an exciting person to be with because of your sharp intellect, optimistic nature and sense of fun. If you are a man, you will enjoy the company of your own sex, and be engaged in many activities, perhaps connected with sport or travel. You can excel in mental sparring contests and the thrill of debate. However there may be a tendency to pontificate, or generally make your opinions known in a rather dominating manner. Knowledge and understanding are strong motivating factors for you, so you like to sharpen your mind with discussion and involve yourself in cultural interests. Women with this aspect are attracted to intelligent men, and often

have attachments to foreigners. The most important motivation factor when choosing a man is his ability to expand her mental horizons - either through religious, political, philosophical or cultural interests. An intellectual watershed arises in the relationship, where the man is no longer able to satisfy the intellectual hunger of the woman. How this issue is dealt with is critical for the success of the relationship. The most important thing for both sexes is to take personal responsibility for ensuring constant intellectual or philosophical expansion and personal growth. Relationships would improve dramatically, if you were able to admit that sometimes you are wrong.

SEX & POWER - DRIVES: Ebullience

Male mentor figures have played an important role in the development of your intellect. If you had brothers, there will have been a lot of mental competition, and you may have felt that you had to struggle constantly to be able to assert yourself in comparison to them. Or alternatively your father may have been a very dominating man with strong opinions. At best this will have provided you with a very stimulating intellectual environment - at worst he will have been moralising, with a tendency to hold long monologues about what he believed in. He may have manifested strong convictions about justice and right and wrong. You too will have developed great sensitivity about injustice, and later on in life this can give you a tendency to feel a kind of righteous indignation when you perceive unfairness.

Women with this aspect like to have a man who can match her on a mental level - but ultimately he will not be able to, because she is the one who developed the intellectual muscles through the challenges of childhood. As a woman you will be extremely sensitive to men insisting on being right, and you will challenge their views. However this is a projection mechanism which wastes your energy, and ends up making the man lose his dignity. You have a strong sexuality, and can experience great fulfilment through the sexual act. Other things being equal you have a healthy and fun-loving attitude towards sex. However you do need to have an intellectual respect for your partner, before you feel erotically attracted. Men with this aspect may be rather too demanding - even greedy - as regards sex, and under certain circumstances this leads to promiscuity. As a woman you will also have a strong sexual appetite, but sometimes unconscious projection mechanisms give you the impression that it is the man who is sexually demanding. Experience will show that this is not the case.

Mars Opposition Neptune

Though not especially strong, you will be able to feel the influence of this aspect under many circumstances.

As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - DRIVE: Refine your desires

Learning to be motivated and being able to define what you really want to do is one of the greatest challenges for you. You have many talents, especially on the creative side, and these can express themselves in advertising and marketing, matters concerning body energies (for example healing and massage), and many other areas - including social care. Paradoxically you have high ideals, yet may get involved in ethically questionable ventures. You can be driven by a nagging dissatisfaction connected with the meaning of what you are doing, and you thrive best when you work creatively or for a cause which transcends material interests. Doing something you believe in is what motivates you. You have strong socialist impulses.

There is an extraordinarily repetitive theme about being cheated which can affect your working conditions. You will experience on occasions that people go behind your back or over your head - seemingly without any explanation. This is connected with your perfectionism and a tendency to express dissatisfaction. People hide things from you partially to avoid experiencing your disappointment. If you analyse your own behaviour you will discover that you also have a tendency to hide things from others! By being honest and accepting apparent imperfections, you can avoid unpleasant repetition of these happenings. It is also important for you to speak your mind and take a confrontation when it arises, to clear the air.

PERSONAL - DRIVE: Refine your desires

There is no doubt that moral issues are a big challenge for you in your life. Early experiences may have inclined you to be wary of acting spontaneously and openly, and this can give rise to great misunderstandings and often deceit in relationships. Women with this aspect will often find themselves getting attracted to men who disappoint them, perhaps through lying or being unfaithful, or through alcohol misuse. Men have problems regulating their material and sexual appetites.

Women are attracted to creative, artistic or spiritual men, who fulfil their inner need to also develop these qualities. Whilst falling for a sensitive man however, there is paradoxically a fear of weaknesses in the male. An exaggerated focus on these supposed weaknesses and a fear of being lied to by the man actually causes the man to conceal his true desires and needs. This can result - in extreme cases - in a double life. The man with this influence cannot find satisfaction in simple material and sexual gratification, no matter how hard he tries - and he tries hard. Happiness comes when both sexes learn that satisfaction is only to be found in creative or spiritual goals - partnership will not in itself provide it. Dissatisfaction has to be seen as a divine discontent which drives the person to higher achievements.

SEX & POWER - DRIVE: Refine your desires

This influence evokes a feeling of vulnerability and satisfaction in both the man and the woman. In childhood you will have been witness to weakness and despair in either the father or a brother. Your father will probably have initiated you into his fears and disappointments, you may have experienced him in tears, or drunk, or confessing sexual unhappiness. As a result you have developed a genuine concern, but at the same time you wish to avoid getting involved with anyone who exhibits similar failings. You are both repulsed by weakness, and attracted to it, because on the deepest level you know that it exists within you.

Women unconsciously project their fears in this respect on men, and every sign of weakness in the man will activate the anxiety connected with childhood. Everything becomes a test for the man and he is doomed to fail. Often the woman will choose a man who has inherent flaws in his character, but even the man without so many flaws will start to exhibit them. At first, however, there is a tendency to over-idealise the man, refusing to see any weaknesses. As early romantic love fades, weaknesses become apparent, and there is a feeling that the man has changed character, although of course he has just reverted to being himself.

The battleground for men is in the fulfilment of desires. Often there is a weakness for alcohol or drugs and sexual escapades - it is as if one is striving to be seduced by life. In the last analysis the test is a spiritual one - ultimately one learns how transient the fulfilment of desire is.

The desire for sexual gratification is powerful, yet in some ways unreachable. There is a strong tendency to be unfaithful, and this is connected with the unrequited dream for sexual satisfaction. Routine sex quickly results in boredom - there is a need for

magic, romance, wine and the spirit of seduction.

Women will often experience male partners being unfaithful - in some cases with parallel relationships which continue secretly for many years. There is a subtle reason for this and it can be avoided. First of all there is a tendency to be very considerate on a sexual level, and this can result in having sex, when you do not really want it. This may mean regular sex without the erotic spark. The man will feel that he is not really satisfying the woman and will tend to seek sex elsewhere. The answer to this is of course only to have sex when you really want it, and to ensure the right seductive atmosphere. Erotic fantasies play an important role with this planetary influence, too, so it pays to share them. Unfaithfulness in this case starts with isolation during the actual sex act.

For the man, sexuality can be almost a plague - the search for the ultimate orgasm. Actually the whole point of this influence is to learn to refine sexual impulses. There can be great healing talents and unusual physical abilities - particularly as regards yoga, Tai Chi, physiotherapy etc. - when this lesson is learned.

Mars Trine Pluto

This aspect is of medium strength and its influence will often be felt, though not acutely.

Please remember when reading this section, that the harmonious nature of this contact means that you can use the energies creatively, for the most part without negative effects.

PROFESSIONAL - DRIVE: Cutting through decay

This influence has a major effect on your career. In your life you are confronted with the issue of power - and powerlessness. You may not be aware of how forceful you are, and therefore you often encounter confrontations and get involved in power battles. Your strength in this area equips you to deal with crisis situations which other people would rather avoid. Thus you can get involved politically or socially, perhaps in trade union activity or in the corridors of power. Although you have a lot of abilities in this respect you may not find great satisfaction in these areas. You have a good deal of psychological talent, and may find fulfilment in helping people in crisis, or people who have adjustment problems. You may have psychic or healing talents. You work hard and very intensely, often into the late hours, and actually you may have difficulty knowing when to stop. It is important to identify this obsessive quality, otherwise you can drive yourself to collapse. By structuring your working hours, you can avoid exhaustion. Life would be easier for you if you were more relaxed. You are very sensitive to what you consider the misuse of power - this is connected with humiliating situations connected with will and power in childhood. Later in life you run into similar situations, especially with authoritarian or dominating - even tyrannical - men, and you tend to overreact. This leads to battles of the will which are quite exhausting - even more for others than yourself. These situations are best defused by seeing them in a different light. By clearly showing others the limits you are prepared to accept, and by sticking to them diplomatically, you can win respect and avoid power games. Remember, if your motives are straight, you will attract people who will be straight with you. It is important for you to think positively about others. You are a powerful ally and a dangerous enemy.

PERSONAL - DRIVE: Cutting through decay

You have experienced a number of deep traumas in your childhood through events which may be secret or repressed. This can be linked to the influence of men - particular your father or a brother. Often a stepfather or half-brother plays an important role. Sometimes a sexual theme is involved. You may also have been deeply affected by someone who had a deep psychological

problem. In some way your will was totally overridden at some point in your childhood, and you are profoundly affected by the humiliation this incurred. It is also possible that you experienced your father - who was dominating, but weak - being humiliated in some way.

Later on, intimate relationships are characterised by great intensity and power games. There is a need for a strong partner who can stand up and fight his or her own battles. Women with this aspect are profoundly attracted to magnetic and powerful men. Such a relationship develops predictably: where the man initially starts as the dominating figure, the woman begins to discover weaknesses as time goes by, and in doing so loses respect. When the relationship ends, the roles have been reversed and the man often ends up in a humiliating position. Men put too much focus on sexuality and the need to demonstrate masculinity. Jealousy and control can be dominating, though concealed, factors in love. The relationship tends to be marred by criticism of weaknesses and bitter discussions over influence. Often therapy can solve difficulties connected with the complex psychological projections involved in this kind of relationship. As time goes by you will discover the benefits of your enormous energy resources and latent power. As a result you stop struggling against imagined power misuse, and simply no longer feel threatened. Deep satisfaction comes from discovering psychological and psychic talents.

SEX & POWER - DRIVE: Cutting through decay

Sexual relationships are an important battlefield for you. The man with this aspect will often demand sex several times a day - or alternatively cultivate an incredible sexual control - and strangely enough this is more because of a need to prove something to himself, than because of true desire. There is a kind of mechanical perfection with the sex act, and a deep obsession with sexual desire and taboos. The man's partner will naturally enough find these demands exhausting, and feel that tenderness is lacking.

For a woman, the fear of being powerless makes it extremely difficult for her to surrender to the pleasures of sex. This can lead her to take the initiative in sexual matters, yet paradoxically there will be a secret desire to be rendered totally helpless by a masterful lover.

There is a deep need to have a spiritually transforming sexual relationship. This may be possible through some kind of tantric sexual practice, but ultimately happiness in this area is based on a restraint which allows sexual energy to build up over a period of time, and the ability to enjoy passively and surrender.

Wisdom

Jupiter In Aries

PROFESSIONAL - WISDOM: Faith in a positive outcome

You have the ability to achieve short-term goals at considerable speed, and luck will often be on your side. You have leadership abilities. Self-confidence and a naive faith in your abilities bring you a long way. To make the most of the your natural blessings in this area, it is important for you to formulate your future goals. Thereafter the simple act of taking the initiative, coupled with a strong faith in the outcome, will almost certainly ensure success. Some people may consider this style rather impulsive, yet a positive attitude coupled with action - the surprise attack - brings untold benefits. The benefits you can achieve - both in your professional and personal life - never arise when you are passive. Do something!

PERSONAL - WISDOM: Faith in a positive outcome

You were born in a year of tremendous dynamism and pioneer activity. This gives you personally the potential and courage to initiate dramatic new circumstances in your life when necessary. This may manifest itself as an impatience with the status quo and a constant need to explore new horizons. Independence and challenge will be important values for you because you can feel more yourself, and more in connection with something greater than yourself, when you overcome obstacles and embark on daring projects. You like learning by doing, and you need to taste the spirit of adventure to feel truly alive. When expressing your opinions you tend to be forceful and impatient, and you will rarely admit that you can be wrong. Old ideas bore you - truth for you is based on your own experience.

Jupiter In 7th House

PROFESSIONAL - WISDOM: Relationship rewards

One of your greatest professional assets is your insight into other people. You have excellent judgement and would succeed in a career in which people came to you for advice. You thrive when working in large concerns, and in a career which offers wide horizons. You are often helped on your way by older people who are favourably disposed towards you, and are generally fortunate in all partnership affairs. Generally speaking you choose to see the best in other people, and this attitude brings out the best in them. You are excellent at motivating people as regards the future, and this positive attitude evokes optimism in them. You have considerable diplomatic talents which are best used on a collective level where the ability to have an overall perspective is the essential ingredient.

PERSONAL - WISDOM: Relationship rewards

Other things being equal you have a very fortunate fate in relationships. Marriage will often bring social and material advancement for you, and you are usually lucky in finding a person who helps you and has your best interests at heart. The most important asset a partner can possess in your eyes is an intelligent and cultured manner. A wise partner imbues your life with meaning and expands your philosophical horizons. You are stimulated by a good discussion, but must take care that you do not fall out with your partner on foolish matters of principle. Differing opinions tend to sabotage your harmony. Your partner may have special political or religious interests, or may come from another country. You can have great pleasure from travelling together and cultivating your shared cultural interests.

Jupiter Sextile Mars

Jupiter Trine Neptune

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life.

Because there is a good aspect between these two planets, you can expect the positive consequences to be strong and very creative, and the negative consequences minimal.

PROFESSIONAL - WISDOM: Expansive dreams

As these planets are relatively slow-moving their influence is felt most on a collective level. Insofar as you channel their influence in your profession you will wish to work on the collective effect of knowledge, the intellect and social influence. There may be a talent for marketing or advertising or selling a dream or vision. There can also be a drive to evangelise on a social, religious or political level. You can be strongly motivated by altruistic ideals and identify with some kind of vision or dream that transcends your own dreams. On a more down to earth level there can be a talents for dealing with oil and related products - particularly

plastics. There may also be an interest in oceans, the film industry and anything which enchants on a collective level. You can be hopelessly overoptimistic - heed realistic advice!

PERSONAL - WISDOM: Expansive dreams

This influence shows that you can be moved by dreams and visions. There will be some aspect of your life in which you are touched by something magic that completely transcends your everyday life. This can bring great happiness, if you choose to cultivate your intellectual drive towards greater spiritual understanding through creative, artistic or meditative interests. At the same time there may be a total lack of grounding, or a tendency to be completely absorbed by unrealistic ideas. There are dreamers of dreams who achieve nothing, and weavers of dreams, who can bring visions down to earth. Ultimately people will be disappointed in you, if you are the former. You have the capacity to make faith and hope guiding lights for your actions.

COLLECTIVE - WISDOM: Expansive dreams

As Jupiter takes 12 years to go around the Sun and Neptune 165 years, the two planets meet in a conjunction cycle every 13 years. It is a time of spiritual progress. At this time humanity is gripped by great hopes concerned with an ideal future of some sort. People work to achieve Utopia - and though as a rule disillusion comes, there will be a period when people are joined in unselfish love for a shared ideal. This is a time when the bubble expands, when optimism exceeds all bounds, when the balloon rises to the greatest heights. Before everything comes down to earth again the human soul is enriched and touched by the divine. Intangible things become tangible in a magical way - there can be a special emphasis on music, art and the media.

Jupiter Opposition Pluto

This aspect is extremely powerful in your horoscope; every action you take will be coloured by this energy. As these two planets are on opposite sides of your horoscope they indicate that you are split between two quite different drives. As a result you tend to imagine other people with the negative qualities described.

PROFESSIONAL - WISDOM: Transformation of beliefs

This influence is often felt more collectively than personally. This is a combination that shows power in one form or another: big money, the power of ideology, the law. You will have very strong convictions and a intense sense of justice, and as such will often find yourself getting involved in issues connected with beliefs, righteousness, power and the misuse of power - especially as far as large organisations are concerned. Success comes when you encourage tolerance in yourself, and flexibility concerning your views, thereby overcome a tendency to be unreceptive to the opinions of others. Systems of positive thinking can transform your life.

PERSONAL - WISDOM: Transformation of beliefs

Your beliefs will undergo a profound transformation during the course of your life. It is important for you to bear this in mind, as you often defend your convictions with an compulsive persuasiveness which can be dominating in personal relationships. You may be aware of an obsessive need to be right, or a consuming hunger to acquire insight, and this can be rather exhausting for those closely involved with you. By resisting the temptation to impose your beliefs on your partner, and by being open and curious about other people's opinions, you can attain harmony. You will certainly develop considerable psychological insight in your life, and this may benefit you both privately and professionally.

COLLECTIVE - WISDOM: Transformation of beliefs

Jupiter orbits the Sun every 12 years, whilst Pluto takes 246 years. Consequently Jupiter catches up with Pluto approximately every 13th year and. After 6« years, Jupiter is in opposition to Pluto, and every 3 years Jupiter is square Pluto.

This planetary cycle is reflected in events which affect the world on a global scale. But if you have an aspect between these two planets in your birth horoscope, your personal efforts can be very significant in carrying out collective transformations. You will often experience major change at the conjunction, square and opposition - at these times you will discover what your destiny is in relation to this planetary cycle and society.

This 13 year cycle show the ebb and flow of ideological and financial power. Mass changes of consciousness occur at the start of each new cycle inaugurating new collective beliefs. There will often be enormous ideological power battles in society. Jupiter/Pluto shows the disproportionate power exerted by small secret groups, for good or ill.

Challenges

Saturn In Leo Retrograde

Because this planet was retrograde at your birth, you will have an instinctive knowledge of, and attraction to, the following traits and activities. You will tend to be introvert in these matters, and pursue your own individual path in strong contrast to the path chosen by others.

PROFESSIONAL - SELF-RELIANCE: Establishing self-esteem
Saturn was in the sign of Leo in the years 1946-48 and 1976-78, and this was reflected in leadership challenges in society, and new systems of child-rearing as well as in a period of emphasis on creativity and entertainment. Inasmuch as you channel this influence in your career, you will feel a strong need to manifest your identity, yet have great doubts as to your ability to live up to a leadership or creative role. You may find that you are subordinated to rather autocratic authority figures, and will feel a strong need to overcome a lack of self-confidence to assume more personal power yourself. You have to lay your identity on the line, take a gamble and risk being creative, overcoming fears of being subjected to the scrutiny and judgement of others. To become prominent, you need to manifest yourself and take centre stage.

PERSONAL - SELF-RELIANCE: Establishing self-esteem

A major area of challenge in your life is concerned with building up a strong sense of identity and overcoming a lack of confidence. You were born at a time of autocratic trends in child-rearing which may have stifled a sense of play and spontaneity, and this means that you tend to take yourself too seriously today. You are oversensitive as regards the impact you make on others, are over-concerned with standing on your dignity, and tend to be hung up on status symbols and gestures of respect or recognition. It is important for you to overcome creative blockages, and you can learn a lot from having children. A little self-irony will go a long way to making you more popular with other people, and it is also important for you to cut loose a little and risk being immature. As you mature you gain greater self-acceptance.

Saturn In 11th House

PROFESSIONAL - SELF-RELIANCE: Social responsibility
Early in your professional life you will feel a certain degree of insecurity in your relations with people - particularly as regards your ability to integrate socially. Yet you will probably spend much

time working with groups and later may attain a position of authority and respect in some organisation - whether business, political or social. Through overcoming your own social inhibitions and the sense of being a lone wolf, you develop a kind of responsibility and sense of duty as regards your role in society. Therefore you gravitate towards jobs which require your talent for organising people. Though people will respect you, they will have difficulty getting close to you personally - you have developed a set of defences which protect you from getting too personally involved.

PERSONAL - SELF-RELIANCE: Social responsibility
One of the major challenges for you in your life is learning to relax together with your friends. Early experiences at school will have isolated you socially, and the pain of being out in the cold will have made you careful in your choice of friends. You prefer companions you feel totally secure with and have known for a long time, and though you may have many acquaintances you have no time for friendships which are not deep-felt. Around the age of thirty major turning points can arise - perhaps at this time you get involved with a group which comes to mean a lot for you. You derive great benefit from overcoming shyness and integrating yourself with purposeful groups which may be concerned with social issues or consciousness development. You regain the social self-esteem you lost as a child through winning respect for the unselfish work you do for others later.

Saturn Square Uranus

You will often feel the influence of this aspect, though stronger influences may predominate in other areas of your chart. In your chart there is disharmony between these two planetary influences, and this will be reflected by many struggles both within your mind, and out in the world.

PROFESSIONAL - SELF-RELIANCE: Structural renewal
This rare combination of planets is part of a 46-year cycle, and the influence will affect everyone over a period of approximately a year. In so far as you channel this influence through your career you have the capacity to deal with large organisations and will often find yourself in the position of establishing a bridge from the old to the new. With one foot in tradition and the established values of collective experience, you will also have to deal with the necessity of reform to adjust to a new future. Depending on which side of this equation you are on, there can be conflict with established authorities. Thus you will often be confronted by two separate and very different camps with very different viewpoints. You deal with social structures which have outlived their usefulness; perhaps a revolution is necessary to make room for the future. You can be skilled at finding ways of putting new technology to practical use. You can work in areas concerned with social reform.

PERSONAL - SELF-RELIANCE: Structural renewal
Your personal struggle is very much connected with when to release your attachment to the past and open yourself and your life to the necessity of change. Often you hang on to restrictive life-patterns too long, and when sudden change comes - as it invariably does - the edifice you have built up can disintegrate as you uncompromisingly embark on a completely new venture. You tread the tightrope between generations and have the capacity to

bridge the gap between young and old. Sometimes you identify with the establishment, yet there will come decisive breaks as you violently strive to adjust to change. You have a role in society in which you should bear the banner of reform.

COLLECTIVE - SELF-RELIANCE: Structural renewal
As Saturn takes a little under 30 years to orbit the Sun, and Uranus 84 years, these two planets meet in a conjunction cycle every 46 years. Saturn represents the forces of the past and the establishment, and Uranus the force of the future. Needless to say, this is an uncomfortable meeting which tends to bring violent upheaval in the world. In mythology, Saturn, who never was very keen on change, castrated Uranus. There was a conjunction in 1942 during World War II, and in 1988 which marked the beginning of the end for the Soviet Union and Eastern Europe. This combination shows the degree of integration of reform in society, and, depending on the kind of aspect, how peaceful this process is. Generally there is a strong polarisation between the old and the young at stressful phases on this cycle - for example during the opposition in 1965, when young people dropped out of established society. The aspect also marks milestones in the practical use of modern technology.

Uranus In Scorpio

COLLECTIVE - ORIGINALITY: Exploring forbidden territory
Uranus takes 84 years to orbit the Sun and is in this sign for 7 years, representing a collective influence on a whole generation. It shows how you are most influenced by revolutionary attitudes in society. When the Ascendant is in Aquarius this influence will be expressed in a more personal way.

Uranus was in Scorpio from 1891 to 1897 and 1975 to 1981. This ushered in an era of anxiety about the future and revolutionary attitudes to tabu issues such as sexuality and death. This was also a period in which there was a strong drive to experience freedom from the controlling side of government, unions and big money. On many deep levels these were times of provocation and breaking down of limits established by convention. If you happen to channel this influence on a personal level you will live your life with an electric intensity and be driven by deep needs to experiment with your life in a radical way. This can bring extraordinary psychological insights and erotic experiences. You will have a tendency to get under other people's skin and shock them in some way, partly because you want to free people from the limiting affect of their irrational fears.

Uranus In 2nd House

PROFESSIONAL - ORIGINALITY: Humanitarian values
You have a radically different set of values compared to others. Material interests are only peripheral to your life - you are turned on by your vision and the stimulating relationships in your life. Your professional assets are an inventiveness and the "surprise" factor, in which you can always think up an angle nobody else has thought of before. You may be suited for jobs where humanitarian or social efforts need funding, or work connected with technical innovation or advanced machinery. You may also be able to earn a living through developing an unconventional talent. Financial security is not a major value for you - you are more interested in the freedom to change and develop.

PERSONAL - ORIGINALITY: Humanitarian values
Your individuality is strongly reflected by strange tastes and a special environment. You may despise material attachment, giving things away impulsively, and acquiring things by chance.

Your values are mostly centred around human interests - you don't like to be tied down by possessions or by your family. You can expect dramatic turning points as regards your economic situation during your life. Sudden loss or gain can be the trigger which brings a radical change in your values. In personal relationships your lack of interest in security and material comfort can be a major source of tension, as you are unwilling to compromise your freedom for material rewards.

Transcendence

Neptune In Sagittarius

COLLECTIVE - TRANSCENDENCE: Limitless horizons
Neptune takes 165 years to orbit the Sun, and approximately 14 years to go through one sign. Its influence affects a whole generation, and is associated with a new sensory and spiritual awareness, and greater compassion, in connection with the sign it is in. For most people this influence is experienced on a collective level, but those who have their Ascendant in Pisces will express it in a personal way in their lives. Neptune was in Sagittarius from 1806 to 1820, and again from 1970 to 1984. A globalisation of human consciousness took place at these times, as people were made more aware of the world around them through travel and exploration. New boundaries were opened up and captured the imagination of the populace. These periods also heralded an expansion of religious consciousness, as other beliefs impinged on and undermined traditionally accepted religious convictions. If you can express this influence in your life in a personal way you will be possessed by idealistic fervour as regards your beliefs and convictions on social, intellectual and spiritual matters. You are inclined to idealise spiritual concepts or mentor figures, but at some point in your life you are likely to be disillusioned. You are motivated by a search for eternal truth, but you will most probably discover that all human concepts are projections of the human spirit, and therefore in the last analysis illusory. Foreign countries and travel may play an important role in your personal development.

Neptune In 3rd House

PROFESSIONAL - TRANSCENDENCE: Develop intuitive knowledge
You have a great imagination and many visionary ideas. Your intellectual interests probably centre around mystical, artistic or musical subjects. Professionally this could express itself in a communication form connected with pictures, emotions or fantasy...for example in the advertising industry or connected with art in some way. In communication matters you are often disappointed that colleagues seem unable to grasp your ideas. Express yourself in a language they can understand. Concentration is not your strong side, so in educational matters you need to be inspired, otherwise you go off into a dream. You can captivate others with your visions and ideals.

PERSONAL - TRANSCENDENCE: Develop intuitive knowledge
It is unlikely that you thrived in school unless you had a connection with a teacher who you could idealise. Dry facts and information seem meaningless to you, so you direct your interests

towards subjects that capture your imagination - especially if they have a spiritual side. You tend to express yourself rather vaguely, perhaps because you don't like to be pinned down to any particular point of view, but the result is that you are often misunderstood, and this adds to your sense of isolation. When pressed you hide behind a smokescreen. In your relationships to brothers or sisters, there may be some peculiar unhappiness or loneliness which has a profound affect on your sense of what is meaningful in life.

Neptune Sextile Pluto

This aspect is extremely powerful in your horoscope; it will dominate many areas of your life. When reading the following description, please bear in mind that you are a fast learner and overcome any difficulties involved very quickly. You can expect to use this aspect constructively and harmoniously.

PROFESSIONAL - TRANSCENDENCE: Mass vision
These aspects are very rare and last a very long time. Indeed, as Pluto moves within the orbit of Neptune in the closing years of the 20th century, the present sextile aspect between the two planets lasts from 1940 to 2040 - one hundred years - so almost everyone has it! If you are able to manifest this influence on a personal and professional level (through powerful contacts in your own horoscope), it may be connected with a deep spirituality and creativity. There can be talent for dealing with the media and wide ranging themes connected with the masses. Material issues will be less important for you than the realisation of a collective dream. There can be clairvoyant powers, and abilities connected with dreams, symbols and visualising. In industry there can be a talent for dealing with oil, the film industry or the transforming power of collective visions.

PERSONAL - TRANSCENDENCE: Mass vision
If you have this influence powerfully evoked by other factors in your horoscope, you will be deeply affected by spiritual issues, and constantly seeking to refine your consciousness. At these times you are likely to experience great personal disorientation and confusion, as old dreams and visions are replaced by new, deep psychological insights. Inner growth will have major priority in intimate relationships. During periods of your life you will undergo deep transformations in which your fantasy and imagination will play a powerful role. It is essential to learn to use your imagination in a positive way by learning about the power of the unconscious.

COLLECTIVE - TRANSCENDENCE: Mass vision
The Neptune/Pluto planetary cycle is connected with spiritual evolution on Earth and whole generations share this present harmonious aspect which - lasting as it does from 1940 - 2040 - is connected with a deep spiritual transformation process affecting the whole of human consciousness. Neptune catches up with Pluto every 492 years, in what can be considered a spiritual seeding period for our planet. New collective ideas emerge at the start of this cycle, evoked by sudden developments of the technology and discoveries of the time. The major conjunctions since the birth of Christ were 411 AD, (disintegration of Roman empire), 904 AD, 1398, and 1891-2. This last conjunction in the sign of Gemini may therefore partly

relate to the revolution of transport (flight and automobiles) and communication (radiowaves) which has such immeasurable effects on our consciousness today.

Transformation

Pluto In Libra

COLLECTIVE - TRANSFORMATION: Balance of power
Pluto has an irregular orbit around the Sun which takes about 248 years. When Pluto is closest to the Sun it takes only 12 years to traverse a sign. When it is furthest away, it takes approximately 30 years. Its influence is felt collectively on a very deep level in society, bringing trauma, transformation and renewal in regard to the sign it is in. Individuals with their Ascendant in Scorpio may express this influence in a personal way, otherwise its effect is expressed as an underlying influence on a whole generation. Pluto was in Libra from 1725 to 1738, and again from 1971 to 1984. Major reorientations in human relationships took place at these times. Accepted modes of partnerships and the institution of marriage were challenged by a collective need for greater balance and a restitution of equality. Politically this was the era of the balance of power, with an underlying threat of destruction. Socially people related in a new way which undermined relationship taboos. Ideological concepts of right and wrong led to the destruction of a social harmony which previously had been based on exploitation.
If you are able to channel this collective influence in a personal way, you will be very concerned about your personal relationships, and they will be a source of private intense turmoil. You may feel called upon to redress injustice in some way, and you are inclined to be ruthless in your judgement, even to the extent of risking social alienation. A relationship of great depth - and the necessity of cutting seemingly unbreakable bonds - may form the backdrop of a major transformation in your life.

Pluto In 1st House

PROFESSIONAL - TRANSFORMATION: Trust the world
You have an intense nature and a subtle but powerful impact on your environment. Survival issues early in your life have evoked an ability for you to handle crisis situations and weigh up threatening influences around you.
This gives you the ability to work under stress, especially when dealing with powerful people. You, too, know how to administrate power, and you have an uncanny ability for seeing the weaknesses in others and exploiting them.
Your natural psychological talent, your x-ray eyes and hypnotic presence make you an imposing person to deal with. Very little can be concealed from you. Major crises in your late thirties can bring a transformation and change of professional direction which may draw you into the investigation of emotional issues.

PERSONAL - TRANSFORMATION: Trust the world
There will have been some trauma connected with your birth or early childhood which will have evoked in you a superhuman effort to survive. Your anxiety about being helpless in your environment paradoxically brings out in you an extremely dominating behaviour which alienates others. This manifests as a manipulative tendency in which you try to maintain control over the people around you. Whilst this is a self-protective reflex in you, it does not give others much of a chance to unfold. Your view of the world has to be transformed from seeing it as life-threatening to seeing it as supportive. When you have overcome your secret anxieties about being powerless and losing control, you will discover inner resources which can help you transform the lives of others in a positive way.

Destiny

N. Node In Scorpio, S. Node In Taurus

PROFESSIONAL - DESTINY: Fall of Mammon
The first part of your professional life is defined by a materialistic attitude and a strong drive to attain economic security. You tend to work very hard, accumulate many objects, and become extremely attached to them and to the sensory pleasures they bring. Nevertheless, it seems that as time goes by you have to pay a higher and higher price for your comfort and security. You work harder and harder on the treadmill of your career, and you seem to become more and more bogged down in tasks which offer no promise for the future. Something of a transformation can occur later in your career, in which you completely abandon your material attachments and guarantees of security, and embark on a process of inner investigation. A new interest in hidden matters, psychology and emotional depths arises, and this can lead to a radical new career direction, where you exchange material security for deeper emotional rewards.

PERSONAL - DESTINY: Fall of Mammon
Your early years are very security-orientated, and you are strongly motivated to enjoy the many sensory pleasure that the world has to offer. You are determined to give yourself all the material rewards that you see other people enjoy. As you mature these kind of pleasures seem emptier - the more you get, the emptier you feel. Thus you are driven to investigate the whole nature of human desire, and find some satisfaction that goes beyond the senses. Your journey will involve deep erotic experiences, psychological trauma and loss of all those attachments that pull you down and prevent your growth. This decisive transformation comes when you reach the stage at which you are prepared to take a step into the unknown, knowing that there are no guarantees of security, and no economic safety net. This path leads to a new life of inner riches.

N. Node In 2nd House, S. Node In 8th House

PROFESSIONAL - DESTINY: Personal satisfaction
Building up a solid sense of personal self-worth and esteem is a lifelong task for you. Early in your life you experience a strong sense of deprivation and a great hunger for material and emotional security. You are acutely aware of the benefits other people enjoy, and strongly focused on what you feel you have lost. Indeed you may sabotage your material security more than once, because of your lack of faith in your ability to attain and enjoy material comforts. Because of an unconscious fear of others having power over you, you may cling to prestige or power in society. Eventually you can attain peace and security by relying on your own innate talents, and building up solid economic foundations as a result.

PERSONAL - DESTINY: Personal satisfaction

A turning point comes at some point in your life - particularly around the age of 37 - in which you learn to trust in your abilities to build a secure foundation for your physical existence. As you mature you learn to accept and enjoy the material benefits which come your way, and this in turns provides a secure environment for developing calmness and self-esteem. Early in life you may be afflicted by jealousy and anxiety as regards stability in your relationships. You exhaust yourself trying to control your partner emotionally. Later, however, desperate need gives way to a contented satisfaction. A number of erotic issues and relationship obsessions give way at this point to a less desperate and more peaceful concept concerning intimate relationships.
